

## Georgia Archives COVID-19 Announcement

The University System of Georgia is consulting constantly with the Georgia Department of Public Health (DPH) and the Governor's Coronavirus Task Force. At this time the Georgia Archives will remain open, but in an effort to practice prevention, we encourage our patrons to make use of our online resources at this time and only come in to the Archives for research if absolutely necessary.

If you do come to the Archives, we ask that you take the following appropriate measures:

**Wash hands as you come into the reception area;**

**Avoid touching your eyes, nose, and mouth;**

**Cover coughs and sneezes with tissues;**

**Be responsible and courteous to others and stay home if you are sick or experiencing symptoms;**

**Respect personal space when greeting others and during conversations;**

**Be mindful of those in high risk populations such as those with underlying health conditions and the elderly.**

For the latest updates, please monitor [DPH's website](#).

We will continue to work with DPH and post updates as conditions change. Thank you.
